

# Halo System User Types

### Client Admin

Access the HaloHub.  
Oversee the entire system.

- Create & set-up logs, users, tasks & customisations
- Access historic logs, & pull information from any data submitted through the Halo System

### App & Dashboard

Access the HaloDashboard via PC, tablet & HaloApp

- Only view events and logs assigned to them
- Oversee (share, resolve, close & chase) dashboard incidents & tasks
- Send notifications (lockdown, evacuation etc)

### App User

Access to the HaloApp only.

- Only see data they have shared or has been shared to them by control
- Report, update and resolve tasks & incidents
- View bulletin board
- Contact other app users

### Multi-Agency Logging

Access an altered dashboard via PC, tablet & HaloApp

- Only see data they or their team have shared or has been shared to them by control
- Allows multiple agencies to work from the same dashboard in a focussed way
